## EDITORIAL NOTE

### ASIAN PACIFIC JOURNAL OF NATURAL PRODUCTS (APJNP): OPEN-ACCESS, SCIENTIFIC, INTERNATIONAL JOURNAL

Dear Readers,

**Asian Pacific Journal of Natural Products (APJNP)** is an international, open access, scientific journal which is committed to provide a unique platform to share the research knowledge among the researchers in the field of natural products under the theme of “**knowledge can be shared**”. Our journal is aimed to focus on basic and applied research to provide some interactive platform between academic members and research professionals for their further fruitful and collaborative research works.

This peer-reviewed international journal publishes research findings in the form of **original research articles, review articles, short communications** in the interdisciplinary areas of Pharmacognosy, Ethnobotany and Phytochemistry, Natural Product Chemistry, Applied chemical sciences, Pharmaceutical and Medicinal Chemistry, research related to isolation and structure elucidation of natural products, spectroscopic properties of natural products, Biosynthesis, chemotaxonomy, structure-activity relationship of natural products, dietary supplements, nutraceuticals etc. with strong emphasis on scientific quality and originality of contents.

Manuscript discussing the screening of natural products for biological and pharmacological activity against various drug targets and diseases are also encouraged.

**“Knowledge is power, wealth & it can be shared”**
